DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/26/07 has been entered.

Election/Restrictions

Applicant's election without traverse of Figure 1 in the reply filed on 5/1/07 is acknowledged.

Claims 8-13 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected embodiment, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 5/1/07.

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

The drawings were received on 7/10/07. These drawings are not acceptable. The drawings are still objected to because all diagrammatic blocks and features in Figures 1 and 4 are required to be distinctly labeled to indicate contents or function with

legends (37 C.F.R. 1.83(a), 1.84(o)) since they are necessary for understanding of the drawing. Correction is required.

In particular, arrows are required to indicate all directions of information flows.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Sun et al (5,923,665) for the same reasons as set forth in Section 7 of the previous office action, dated 6/14/07.

Response to Arguments

Applicant's arguments filed 11/26/07 have been fully considered but they are not persuasive. Applicant asserts on pages 4-6 of the Remarks that Sun et al fails to disclose receiving and responding to a request for displaying only part of the images. However, Figure 1B of Sun et al illustrates the concept of such common request for displaying image 130. In response, the process generates a video signal using the tearing process 140.
